Terms of Admission.

Candidates for admission to the Freshman Class are examined in English Grammar, Geography, Arithmetic, Algebra through Simple Equations, Andrews and Stoddard's Latin Grammar, seven chapters of Arnold's Latin Prose Composition, Cæsar's Commentaries, six books of the Æneid of Virgil, Cicero's Orations against Catiline, Crosby's Greek Grammar, and the Greek Reader or an equivalent.

The regular examination for admission to College takes place on the Tuesday preceding Commencement.

For advanced standing, the candidate, whether from another College or not, in addition to the preparatory studies, is examined in the studies to which the class which he wishes to enter, has attended.

No one can be admitted to the Freshman Class till he has completed his fourteenth year, or to an advanced standing without a proportional increase of age.

Testimonials of good moral character are in all cases required, and those who come from other Colleges must produce certificates of dismission in good standing. Every student is required, within four weeks from his entrance, to matriculate, by signing a pledge to obey the laws of College, and to abstain from the use of intoxicating drinks, and from every species of immorality.

In addition to the recitations here specified, Composition, Extemporaneous Speaking and Declamation are made prominent objects of the student's attention. Thorough training in these respects is considered of the highest importance in making a College education practically useful. The aim of the whole course is to enable the student to obtain a well-balanced education, in which the power of expression shall be attained equally with discipline of mind and facility of acquisition.

All the students in the College and the Preparatory Department recite in the English Bible on Monday morning.

While all the branches of study are taught from text-books, the Professors in the several departments follow up the text-book instruction with Lectures.

In addition to the lectures delivered by the Professors in their various departments, occasional lectures are delivered before all the students, having a direct bearing upon their characters and habits as students and gentlemen, and designed to promote order, decorum, and an elevated standard of scholarship, as well as to furnish useful information on topics not strictly embraced in any of the departments.

Preparatory Department.

This department, which is primarily designed to give a thorough preparation to those intending to pursue a Collegiate course, is under the general supervision of the Faculty. Two or three years will be devoted to this preparation, according to the age and attainments of the pupil. Students not proposing to enter College will receive instruction in such branches as they may wish to pursue.

The sessions begin and end at the same time as in College. The price of tuition is $25.

Terms and Vacations.

Commencement is on the Thursday preceding the 4th of July.

The College year is divided into three terms and three vacations. The first term begins nine weeks after Commencement, and continues till about the 22d of December. The second begins about January 5th, and ends thirteen weeks before Commencement, making the first two terms together twenty-eight weeks in length. The third term is eleven weeks long, ending the Thursday before the 4th of July. The first vacation is nine weeks, the second two, and the third two.

Attendance, etc.

No student is allowed to be absent without special leave, except in vacations. The absence of a student in term time, even for a few days, occasions much greater injury to his progress in study than parents and guardians commonly suppose, and they are earnestly requested not to give their consent to any absence except for very urgent reasons.

The first exercise in each term is prayers, at which every student is expected to be present.

Should the return of the student be delayed beyond the beginning of the term from any cause, he is required to report himself to the presiding officer immediately upon his arrival in town, and assign the reason of his delay. In all the departments, it is of great importance that students should enter *at the beginning of the term.*

Every student is required to attend punctually upon all the literary and religious exercises. In cases of absence, he should inform the officer to whom he is responsible, of the cause of his absence, previous to the time of the exercise. Should this be impossible, he is required to present his excuse immediately after the absence has occurred.

Every Wednesday, all absences which have occurred during the previous week are reported to the Secretary, and recorded. After reports have been recorded, no alteration can be made on account of negligence in presenting an excuse on the part of the student.

The rooms in College are assigned under the direction of a Committee of the Faculty, and no changes can be made without the consent of the Committee. And only those persons are allowed to occupy rooms whose deportment is in all respects quiet and orderly.

Examinations.

At the close of every term, examinations of all the classes will be held, conducted partly orally and partly in writing.

A record is kept of the attainments of each student, and also of his delinquencies. Information concerning his proficiency and deportment is sent to parents, whenever requested.

Expenses.

Tuition, per annum, - - - -	$30,00	$30,00
Room-rent, including stove, - -	9,00	11,00
Library and incidentals, - - -	5,00	7,00

The cost of Fuel is about $4,00 a year, and Board can be obtained from $1,75 to $2,50 per week.

Bills for Tuition, Room-rent, and use of Library, are payable in advance, at the commencement of each term.

Where the student retains his standing, no deductions will be made for absence.

It is difficult to give an estimate as to apparel and pocket money. In respect to them, the expenses of students greatly differ. There is no greater obstacle in the way of a student, whether in respect to character or scholarship, than a profuse allowance of money. Parents are particularly requested not to place temptations of this character before their sons, and not to authorize them to obtain credit here.

Societies.

The two Literary Societies have large and beautiful Halls, occupying the whole of the third story of the new College edifice. Their two Libraries contain 6,000 volumes.

The Society of Inquiry has a Library of about 1,000 volumes, and an extensive Museum.

A Society has been formed in the Preparatory Department, which has furnished a Room and commenced a Library.

Libraries, Cabinets, etc.

The College and Society Libraries contain 17,000 volumes.

The College Library is open every Saturday to all the College classes; and to the students in the Preparatory Department, on payment of the usual fee.

The Libraries of the Literary Societies are open to their members every Wednesday and Saturday.

The College possesses a valuable Cabinet of Minerals, which contains many beautiful specimens, and is sufficiently large and full for all purposes of instruction. There is connected with it a collection of fossils and other geological specimens.

In addition to the College Cabinet, there is the "Hildreth Cabinet," comprising the whole of the valuable collections of minerals and fossils of S. P. Hildreth, LL. D , of Marietta, which, with his scientific library, and fine entomological and conchological specimens, and collection of American antiquities, he has generously given to this Institution.

Charitable Fund.

The Tuition and Room-rent of indigent young men preparing for the ministry, are paid from a fund contributed for that purpose. Assistance can be received from the Education Society, to the amount of fifty dollars a year by those in the Preparatory Department, and about eighty by those in College.

Industrious and enterprising young men can defray a considerable portion of their necessary expenses, by means of the different employments which the place furnishes.

Public Worship.

Prayers are attended morning and evening in the College chapel, when all the students are required to be present. Every student is required regularly to attend some one place of public worship twice on the Sabbath, being at liberty to connect himself with any of the regular religious congregations of the place, according to the wishes of his parent or guardian.

A lecture on some topic of natural or revealed religion is delivered to all the students every alternate week.
